

**Minority Recruitment Committee**

Report to the Board

September 11, 2013

Louisville, Kentucky

The committee recommends that Minority Scholarship Committee be expanded to include all KLA scholarships including the new license plate funded scholarships. The application for the "license plate" grants could be based on the existing Minority Scholarship application combined with some requirements from some existing KDLA and ALA scholarship applications.

The Minority Scholarship application deadline was June 15, 2013. Unfortunately, we did not receive any applications for the 2013-2014 school year. Information was sent to regional library schools, posted on the KLA website and distributed on various statewide and regional lists. The committee needs assistance from all KLA members to promote this important scholarship to colleagues and students.

The 2012 – 2013 recipient confirmed that he successfully completed coursework for the spring semester at the University of Kentucky. The files from the 2012-2013 scholarship year were closed out and added to the KLA Archives.

Respectfully submitted,

Judith
